

WHY ST. JUDE?

St. Jude Children's Research Hospital was founded in 1962 by Danny Thomas. It is a pediatric treatment and research facility focused on children's catastrophic diseases and all childhood cancers.

St. Jude has helped push overall childhood cancer survival rates from 20% in 1962, to more than 80% today. They have 24 partner sites in 17 countries.

St. Jude shares their discoveries with all doctors and scientists worldwide, which helps to save thousands of children at your local level, not just at St. Jude hospitals. They have treated patients from all 50 states and around the world. Doctors often send their toughest cases to St. Jude, because they have the world's best survival rates for some of the most aggressive childhood cancers and diseases.

Of the \$1 billion a year budget, 75% comes from donations. This non-profit medical corporation is a registered 501(C) (3) tax exempt organization by the IRS.

Families never receive a bill from St. Jude for the treatment, travel, housing or food. Because all a family should worry about is helping their child live. They treat on average over 7,800 kids per year and provide hundreds of free consultations for doctors worldwide.

St. Jude has so many "firsts" that have benefited so many worldwide.

St. Jude won't stop until no child dies from cancer.

"HOPE FROM HEAVEN"
